

Type
Food→Flow® M/SD

High quality rubber hose, perfect for handling beverages such as wine, fruit juice, beer and drinking water. Suitable also for milk and milk products. Suction and delivery hose.

Construction:
Tube

EPDM rubber, light colour, odourless and tasteless, mirror-smooth.

Reinforcement

Ply of synthetic cord and embedded synthetic wire helix.

Cover

Synthetic rubber, blue colour, smooth, abrasion and weather resistant, cloth finish.

Extra information

The composition of its inner liner makes it highly resistant to acids and bases with medium concentration. Perfect solution when temperature capacity is required. The hoses provides a high resistance to usual commercial cleaning and disinfection products used in food sanitation processes.

Temperature range

-40°C up to +120°C.

Sterilization up to +140°C for max 30 minutes.

D1 (mm)	D2 (mm)	Working Pressure (bar)	Vacuum (bar)	R (mm)	Theoretical Weight (kg/m)	Maximum Length (m)	REF
19	6	10	-0,9	80	0,65	40	FOEPMW0019
25	6	10	-0,9	120	0,80	40	FOEPMW0025
32	6	10	-0,9	150	0,96	40	FOEPMW0032
38	7	10	-0,9	200	1,42	40	FOEPMW0038
50	7	10	-0,9	250	1,80	40	FOEPMW0050
65	8	10	-0,9	360	2,67	40	FOEPMW0065
75	8	10	-0,9	450	3,10	40	FOEPMW0075
100	9	10	-0,9	600	4,80	40	FOEPMW0100

All hose assemblies can be supplied with test certificates.

Tous les assemblages de flexibles peuvent être livrées avec certificats d'épreuves.

Alle slangmontages kunnen worden geleverd met testcertificaten.
